

My trip to France

My name is Malou, I was in France with my classmates. We were 19, we leave Ilulissat 31st March. First we flee to Kangerlussuaq, after we flee to Copenhagen.

That I like the most during our trip is when we were in Tivoli in Copenhagen and when we were in Toison d'Or. And when we were in hotels, because we always laugh, and sometimes can't breathe anymore. And at the soccer field with France people.

We got many friends we meet them every day at 8.00pm at the soccer field we play football and Aaviusaaq ("Aaviusaaq" is a Greenlandic game).

The food was not that different because in Greenland we eat the same. But they make the food different to how we make the food.

The worst experience was when we said "bye" to our new friends, many of us cried and don't want to go back to Greenland.

In Paris, we were in the top of Eiffel tower. In Copenhagen we were in the swimming pool and we were in Tivoli.

Our trip to France was amazing, I love their culture and I love the view in France.

Malou Holm
