We are there 2-3 hours, after that we fly to Denmark and we fly 4 hours and some minutes. We sleep one night in Denmark and we sleep at the hotel. We wake up about 6:30am, we eat and go to the airport, we fly to France after that and we fly about 2 hours and some minutes. When we landed in France, we get our suitcases, and get picked by Rudolf and Sandrine. After that we went to the apartment and get to sleep. In France, we are in top of Eiffel tower. We are in caves, in the caves two students (Greenlandic students) get sick. We are in (Dijon) factory, and there they give us to mustard. We are in two different schools too. At school they show us the school and we work too. We are in winery, they show us how to make wine. We are in the old town. We are in the park in the woods. We have been in the bus almost all time. We have been in Dijon (big town), in Dijon, we are in a shopping center (Toison d'Or), there we shop, and a journalist come and photograph us, we buy many things. After the shopping, we drive bus back to the apartment, we are in the bus for some hours. We have been with the other French people too. We also hold a farewell party. That is the thing we remember what we have done in France. In Denmark, we have been in Tivoli, we have been in swimming hall too, we are in the shopping center (Fields). In Fields we buy not so much, that is the things we remember to do in Denmark. We are 19 people, 16 students and 3 teachers.
